SUMMARY

Computer Science student at the University of Makati (Major in Application Development), with a consistent Dean's Lister standing and hands-on experience in front-end and mobile application development. Proficient in React JS, React Native, and Figma, with demonstrated ability to handle the full project lifecycle from systems analysis and documentation through development, testing, and quality assurance. Seeking internship or entry-level opportunities to apply technical skills in a professional software environment.

EDUCATION

UNIVERSITY OF MAKATI	2023 – 2027 (Expected)
Bachelor of Science in Computer Science Major in Application Development	
Consistent Dean's Lister	

TECHNICAL SKILLS

- Languages & Frameworks: React JS, React Native, Tailwind CSS, PHP, HTML
 - Design & CMS: Figma, WordPress
 - Development Practices: UI/UX Design, Web & Mobile Application Development, Systems Analysis & Documentation, Software Testing & Quality Assurance
- Soft Skills**
- Time Management, Multitasking, and ability to perform well under pressure
 - Strong Teamwork and Collaboration skills in agile academic environments
 - Analytical Problem Solving and adaptability to new tools and technologies

PROJECT EXPERIENCE

Seated: A Mobile Application for Reserving Seats in UMak Theatres <i>React Native, Figma</i>	Academic Project 2025–2026
• Led systems analysis: defined data flows, system requirements, and prepared technical documentation for the development team. • Developed a mobile application enabling users to browse, reserve, and manage seat bookings in real time. • Focused on accessibility and a clean user experience, applying UI/UX principles from Figma prototypes through to implementation. • Executed structured test cases covering functional, usability, and edge-case scenarios, ensuring the system met all acceptance criteria.	
Eventure — Event Management Platform <i>React JS, Tailwind CSS, Figma</i>	Academic Project 2024–2025
• Conducted systems analysis: gathered user requirements, modeled workflows, and produced technical documentation to guide development. • Designed UI/UX wireframes and prototypes in Figma before handoff to the development phase. • Built core features including event creation, registration, scheduling, and participant management. • Performed testing and quality assurance, validating all features against requirements and resolving defects prior to release.	
Block 69 Café	Academic Project 2023–2024
• Web-based café management system with menu browsing, order placement, and billing functionality. • Developed the frontend using PHP, translating layouts directly from Figma prototypes. • Conducted testing and quality assurance — identified and resolved bugs to ensure a stable, user-friendly experience before final submission.	

EXTRACURRICULAR & ORGANIZATION

Web Administrator — USMO	UMak Student Multimedia Organization 2025 – Present
• Managed and maintained the official website of the university's student media organization. • Handled content updates, layout management, and ongoing site performance monitoring. • Applied WordPress and front-end skills to ensure a consistent, accessible online presence for the organization.	
UMak Centric: 7th Hackathon 2025	University of Makati May 7, 2025
• Competed in a university-wide hackathon, collaborating with a team to design and develop an innovative tech solution under time constraints. • Awarded 1st Runner-Up and Most Disruptive Innovation — recognizing the team's technical execution and the originality of the solution proposed.
